

MSS Undergraduate Research Poster Session

Purpose: The Poster Session is designed to feature undergraduate work in sociology and promote interaction between all members of the Midwest Sociological Society.

“A poster presentation consists of an exhibit of materials that reports research activities or informational resources in visual and summary form. Poster presentations provide a unique platform that facilitates personal discussion of work with interested colleagues and allows meeting attendees to browse through highlights of current research and ideas.”

-- American Sociological Association

Content: Undergraduate students experience and study the “art” of sociology in many ways. This session is designed to feature these experiences and studies. Posters may present original research and data collection, theoretical works and applications, studies of public policy using sociological frameworks, as well as other forms of being engaged with the sociological imagination.

Format: Guidelines and information on constructing and displaying posters, session logistics (date, time, place), and presenter expectations details will be sent to all participants accepted into the session.
